

1. Downloading the program

Go to <https://discord.com/> and find a download button on the screen (fig.1):

Save DiscordSetup and when the download is finished run this program.

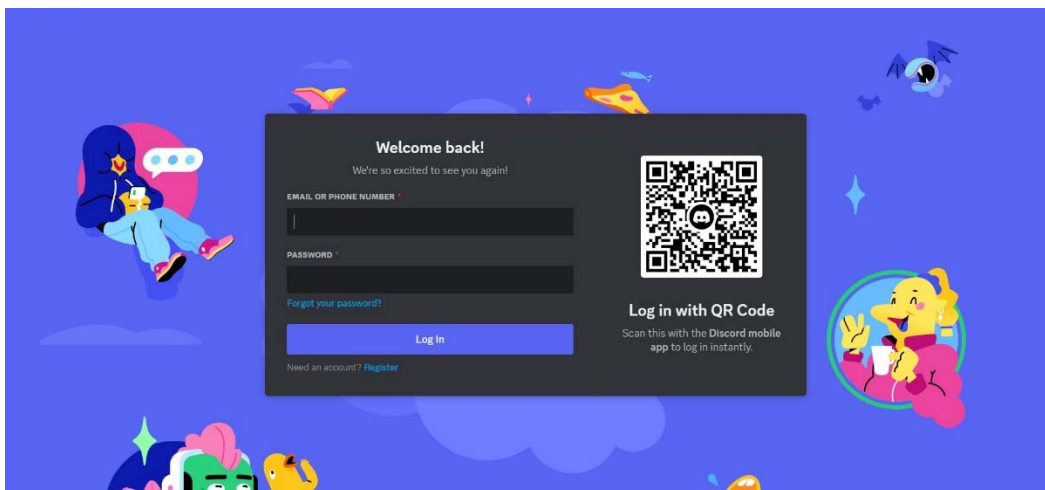

Installation process should begin immediately after You run the program.

2. Setting up an account

After installation process, screen should look like this (fig.2).

You need to make an account to be able to participate in the poster session.

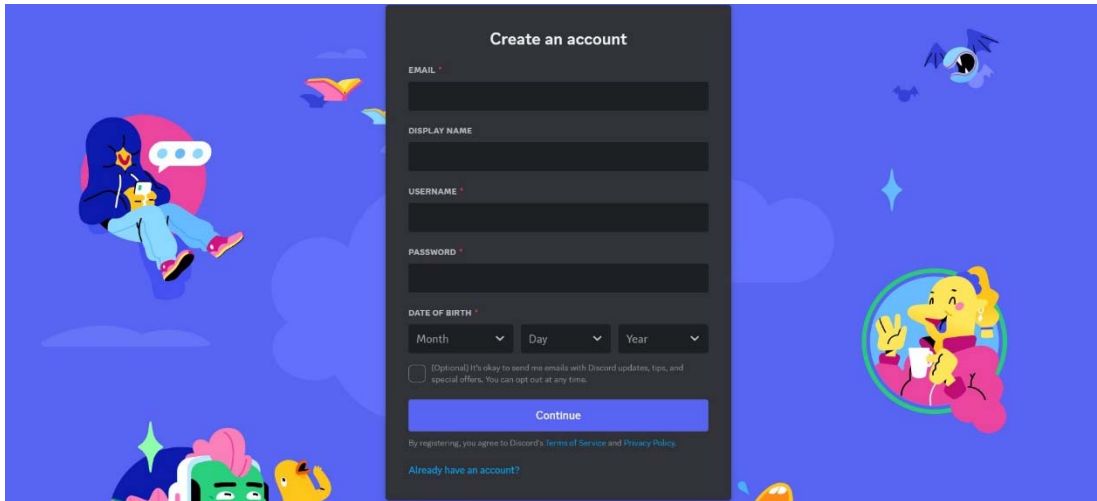

In order to do that, You need to click on „register me” button in down left side corner.

After clicking „register me” the screen should look like this (fig.3).

Now You need to type Your e-mail, account name, password and Your date of birth.

IMPORTANT NOTE! – Please use email that You used in IEEE NAP 2023 application

3. Connecting to the E-poster Session Server

Couple days before E-poster Session You will get a invitation link on Your E-mail provided in the

application for IEEE NAP 2023 conference. This link will redirect you to your discord app. You

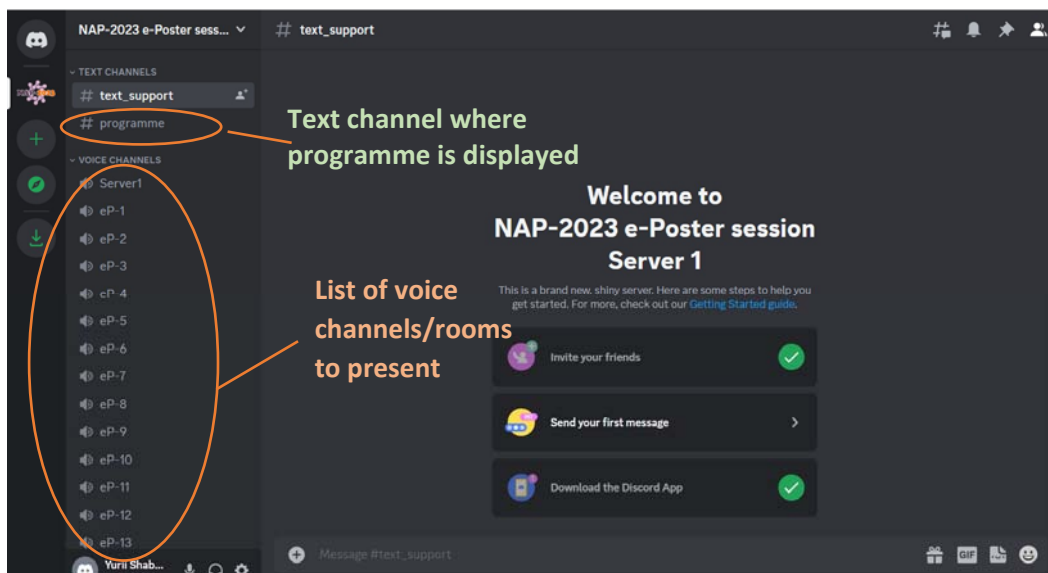

have to accept this invitation in order to participate in event.

4. Basic functions of Discord app

In Discord app You can join any voice or text channel displayed on the left side of Your screen.

Each participant will be assigned to one of the rooms on the left. There is a text channel that

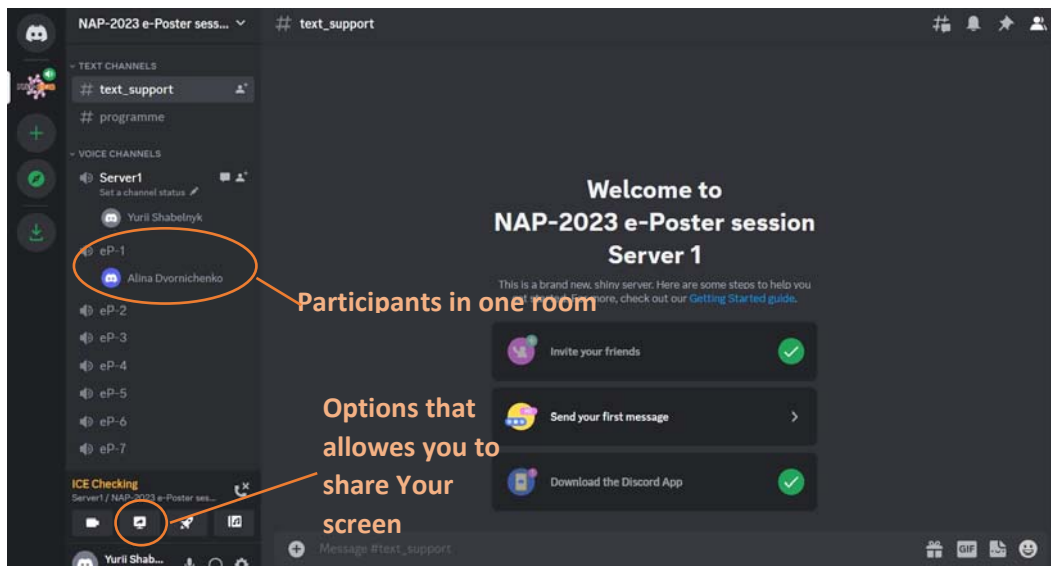

displays all the information about a programme of this session (fig.4)

When You join a voice channel You can share Your screen, talk to people and show Yourself on

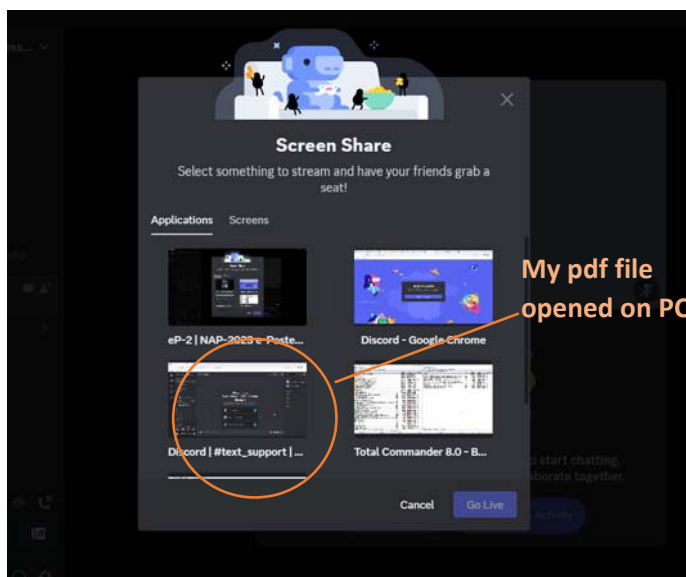

the camera. In this session we will Focus mainly on sharing Your screen. By that option You will

be able to show other participants Your poster (fig.5)

After You click share screen button the screen should look like this (fig.6) First of all, You need to

open Your poster in any program You want and then share this particular screen.

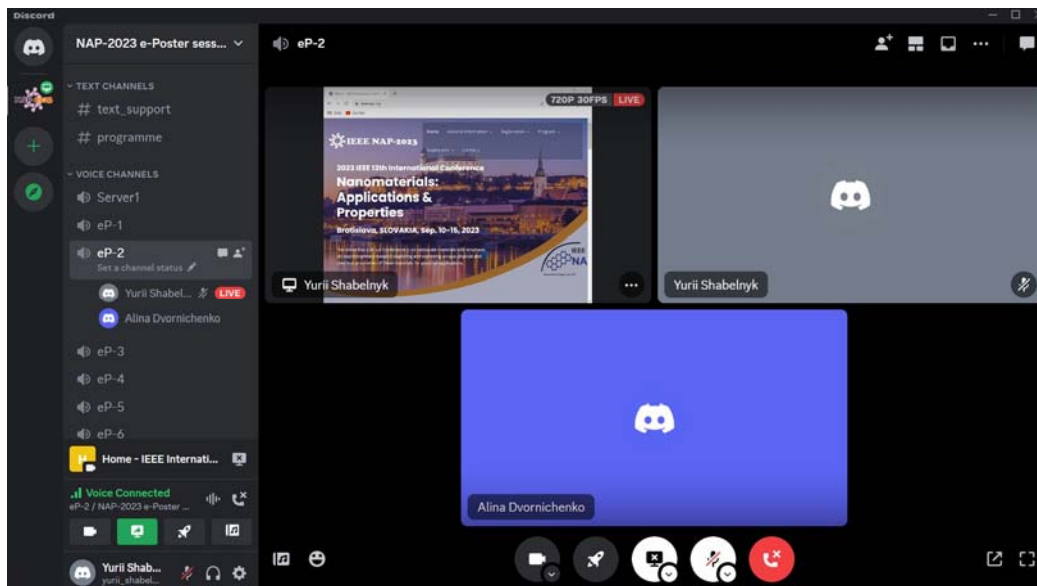

After You click Your chosen screen You need to click broadcast live button

(bottom right corner of a screen) to show Your screen.

You will see a little screen on the bottom left side of a screen. You can click it 2 times to enlarge

the screen. You can also type text messages on the voice channels.

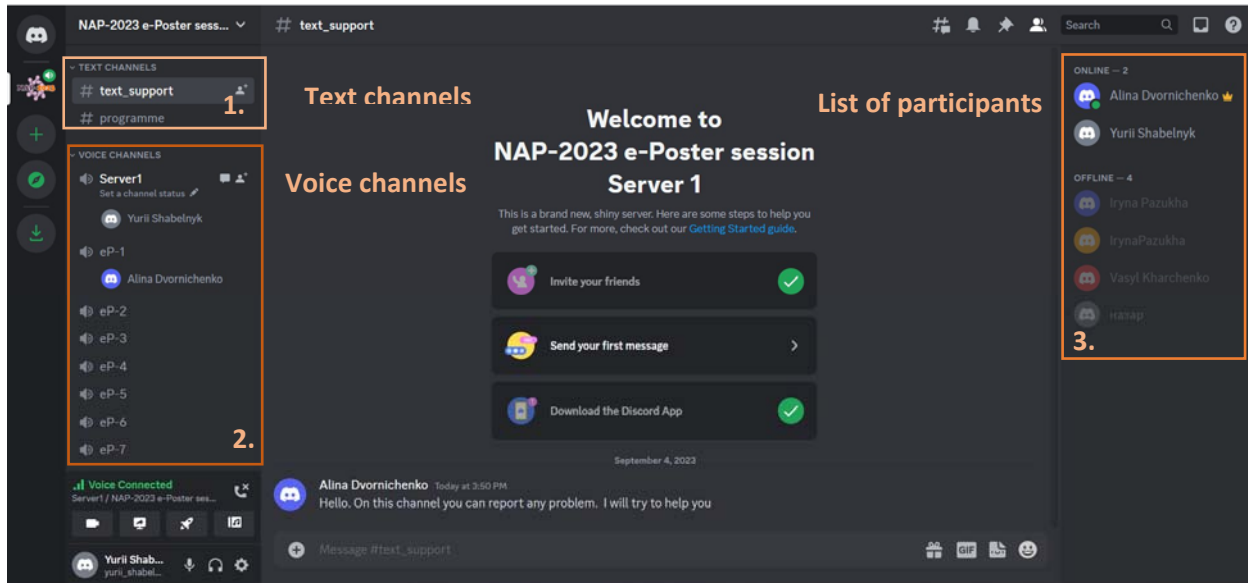

You can also move freely between the channels to talk to other people and see their posters .

If You have any problems with registration/downloading etc. Please email me on:

a.dvornichenko@mss.sumdu.edu.ua

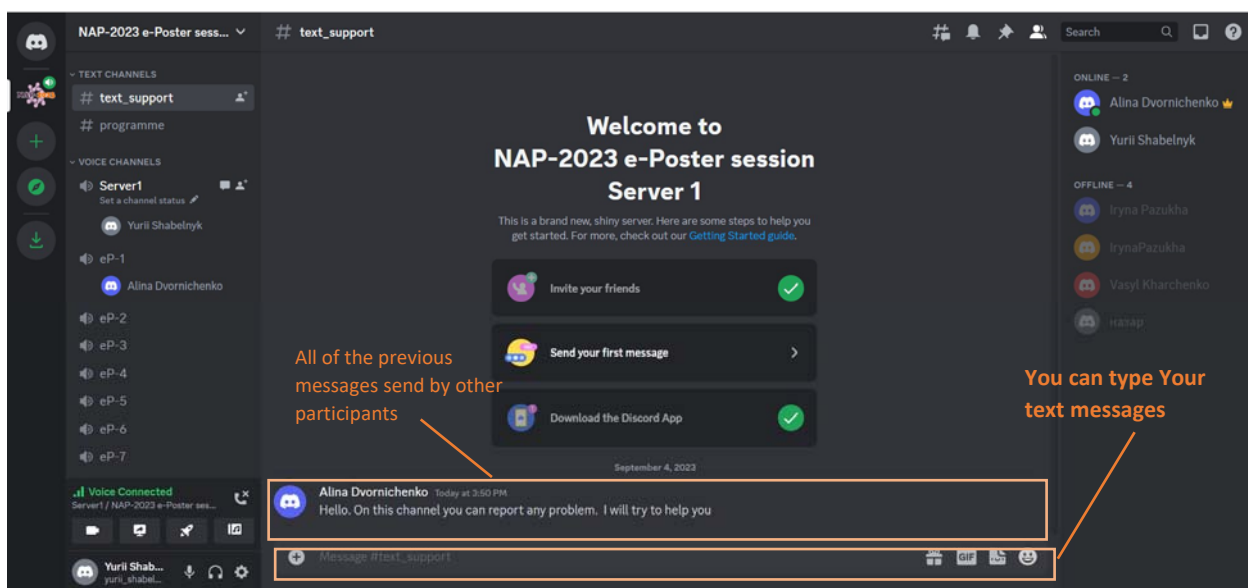

I will try to answer all Your questions

When You open Discord app and log into the server You will see This screen:

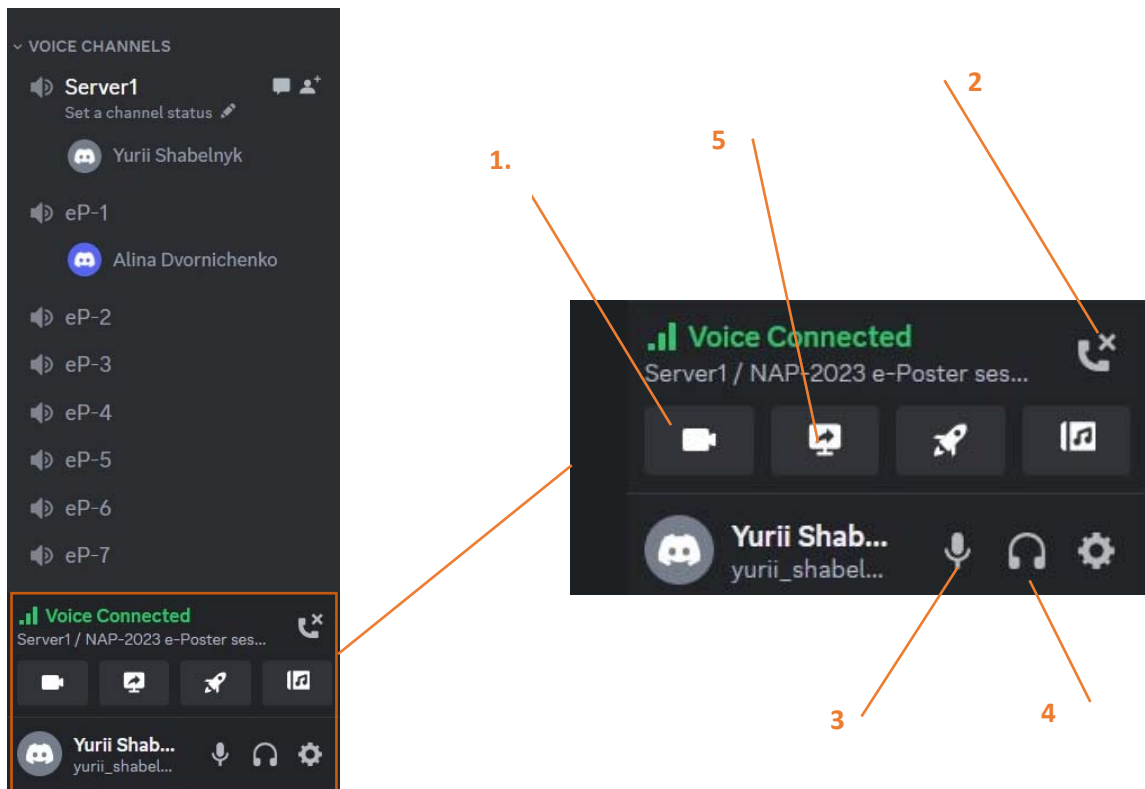

1. TEXT CHANNELS

You can join any text channel in the server by clicking on the name of the channel once with Your left mouse button. After You do this, Your screen should look like this:

2. Voice channels

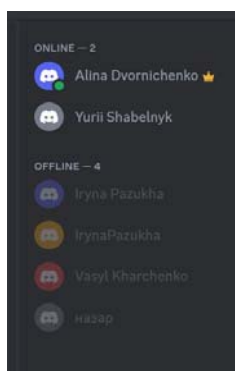

You can join any voice channel in the server by clicking on it once with Your left mouse button. If you want to see all the screens and participants in this particular voice channel You need to click on the name of voice chat again with Your left mouse button.

After You join voice channel, Your left side of the app should look like the picture on the left.

Let's talk now about what can we do in voice chat:

1. **Video button** – With this button You can turn on Your camera.
2. **SHARE SCREEN BUTTON** – this is most important button in Our E-poster Session. With this switch You can share Your screen to other participants
3. **Microphone on/off** – by clicking this button You can mute/unmute Yourself
4. **Overall volume switch** – By clicking this button You can mute/unmute Yourself and switch on/off volume.
5. **Disconnect button** – When You want to leave this voice channel You simply press this key and You will be disconnected.

3. List of participants

You can see the list of participants on the right side of Your screen. By clicking once with Your left mouse button to open window with personal chat (image bellow):

That's all the information You will need to be able to move across Discord app. If You have any

questions feel free to ask them, I'll try to help

See You on the E-poster Session!
